**Re: City of St. Helena Comprehensive Flood Protection Project Draft EIR**

Dear City Council Members:

Friends of the Napa River (FONR) received the Draft Environmental Impact Report (DEIR) on the "City of St. Helena Comprehensive Flood Protection Project." On the same date, January 27, 2003, when the DEIR was released, we submitted further comments prepared by our consultant Phil Williams Associates (PWA) to you. In view of this overlap we don't want to miss a deadline and make sure that these comments become part of the public record of this project. Therefore, we are submitting the complete set of comments to you at this public meeting.

We appreciate the opportunity to work with the City of St. Helena to achieve the best possible Flood Protection and River Restoration in accordance with the "Living River Principles."

Sincerely,

Bernhard Krevet, President  
Friends of the Napa River
